ELENA VANCE

elena.vance@example.com • +1 (555) 011-8492 • Principal Backend Systems Architect

PROFESSIONAL SUMMARY

Accomplished Backend Systems Architect with 7 years of specialized expertise in Python, FastAPI microservices, high-throughput PostgreSQL databases, Docker containerization, and AWS Kubernetes infrastructure.

TECHNICAL COMPETENCIES

Python, FastAPI, PostgreSQL, Docker, Redis, REST APIs, Microservices, AWS, Kubernetes, Git

WORK EXPERIENCE

Lead Backend Engineer | Apex Distributed Cloud (2021 - Present)

• Architected mission-critical distributed microservices in Python and FastAPI serving 25k RPS. Optimized PostgreSQL connection pooling and Redis multi-tier caching clusters on AWS.

Senior Backend Developer | DataMesh Systems (2018 - 2021)

• Implemented containerized services using Docker and automated Kubernetes deployment manifests. Built robust REST APIs with asynchronous task execution.

EDUCATION

Master of Science in Computer Science, Carnegie Mellon University
